

**RFQ 2013-02 Bidder Questions
November 21, 2013**

- 1) Do you want to see pricing for each site type or one blended price?**

By site type defined in section 3.1.1.2 and 3.1.1.3 would be preferred

- 2) The RFQ mentions Seismic Testing & Biological Survey – these functions would largely be site specific scopes of work. Can we indicate pricing TBD on these functions based on a site specific SOW?**

Suggest a bid on these items noting that this menu of items does not apply 100% to every site

- 3) We believe geotechs and resistivity line items are missing from the matrix?**

Bidders should add geotechs and resistivity and any other line item they believe is missing from the pricing matrix.
